Eagle

'Lest We Forget'

Maths

In Maths we will be looking at place value for numbers up to ten million. We will be ordering and writing larger numbers. The children will learn to round numbers to the nearest ten, hundred and thousand for any number up to million. We will learn how to multiply and divide numbers by two digits using a written method.

English

In English, we will initially study 'Krindlekrax' as a text, before moving on to link work with our history topic. We will look at writing different genres and text types. Including a story involving a range of settings, newspaper reports, biographies and chronological reports.

Discovery

We will study the events leading to and during World War I and it's effect on the map of Europe.

Science

In Science , we will be studying the properties of materials. This will include looking at reversible and irreversible changes.

Computing

We will look at online safety and personal information. Then we will study coding using variables.

RE

We will study how and why religion brings peace and conflict.

Art / D&T

We will study how to bring depth to pictures and the work of Henry Moore.

Music

We will learn to write melodies using the major and minor scales.

PSHE

We will be discussing how to share our opinions respectfully to work as a successful team.

Homework

'Lest We Forget'

Maths

1. Find a list of prices of something you are interested in. Order the amounts from cheapest to most expensive. Extension: write the amounts in words.
2. Measure objects in your house. Then round all the measurements to the nearest ten cm.

3. Use a hundred square (supplied) to mark ticks on all the different timetables (in different colours). So, for example, a green tick in each number in the 3 times table, a blue tick in each number in the four times table). Which numbers have the most ticks? Which have the least?

English

1. Design a poster about one of the characters from Krindlekrax. You may draw a portrait of them, but also consider their appearance, actions and roles in the story.
2. Write a description based on the title 'The View From the Window'. This could be an actual view (adding an image of the view you are describing would be great) or one you have imagined.

3. Write instructions of how to make something, such as: a lego toy, a meal or how to put up a tent.

Topic

1. Using Scratch (scratch.org) program an animation.
2. Research and write about one famous person from World War 1. Create a poster about them, or write a short biography of them.

3. Sketch a portrait of a member of your family.
